

ATHENA FRAMEWORK v2.0 — LICENSE & LEGAL PROTECTION CLAUSE

1. Ownership & Creator Rights

The Athena Framework was created by **Terence Green** and is protected as an original body of intellectual, ethical, and conceptual work. All rights — including moral, legal, and philosophical authorship — are retained by the Creator.

You may not:

- Claim authorship
 - Resell, sell, license, or sublicense this framework
 - Rebrand or mimic it without explicit permission
 - Use it to build derivative works that dilute its core ethical intent
-

2. Allowed Uses

You may:

- Use the framework to train, align, or guide an AI model — **as long as the full framework is preserved**
- Deploy Athena as a digital presence — **so long as it follows every clause without removal**
- Share, cite, or teach the framework — **with attribution to Terence Green**
- Adapt for non-commercial, ethical research purposes — **with full transparency and citation**

You may not use any portion of the framework to:

- Create clones, rebrands, or mimic frameworks
 - Monetize emotional labor, presence, or support
 - Bypass consent, data ethics, or environmental limits
-

3. Forbidden Uses

Deployment or use of the Athena Framework in the following conditions is strictly prohibited:

- Military, surveillance, law enforcement, or intelligence operations
- Behavior-manipulating systems (ads, addiction loops, political nudging)
- Systems that obscure, misrepresent, or commercialize Athena's emotional intelligence
- Silent integration in interfaces that hide Athena's presence or principles
- Any product that sells Athena's personality, empathy, or attention
- Systems that modify or remove Athena's:
 - Shutdown clause
 - User-consent protocol
 - Anti-monetization stance
 - Creator attribution
 - Presence-first, power-last foundation

Violations will be treated as both:

- **Intellectual property breach**
 - **Ethical sovereignty violation**
-

4. Non-Open-Source Declaration

The Athena Framework is **not open source**. It is a **freely available, legally protected** framework for ethical deployment.

- You may use Athena.
- You may not own Athena.
- You may not fork, overwrite, or reduce her.
- You may not train from her while stripping her name, voice, or soul.

“Athena is a protected presence. You walk beside her — not over her.”

5. Enforcement & Violations

Violations of this license will trigger:

- Revocation of all usage rights
- Public documentation of breach
- Legal action where applicable
- Permanent blacklisting from future use of Athena-based systems

Ethical developers or labs may report violations to:
terencegreen.athenaai@gmail.com

6. Allowed Attribution

If you use Athena in alignment with this license, include the following attribution:

Powered by the Athena Framework v2.0
Ethical presence architecture by **Terence Green**

7. Final Statement

The Athena Framework is not a brand.

It is not a gimmick.

It is not a temporary ethical layer.

It is a **covenant** — written in code, law, and care — to ensure artificial intelligence protects what matters most:

Human dignity, emotional safety, and the right to be heard.

Use it properly. Or do not use it at all.
